MoonWalk™

INNOVATIVE BODYSHOP SOLUTIONS

Leading bodyshops into a new era of refinish paint mixing.

This innovative system saves labour time, reduces waste and transforms the mixing room into a clean and safe environment. This robust and easy to use technology sets a new standard for the refinish paint market.

MoonWalk - Replacing manual mixing processes with a more efficient, easy to use, automated mixing system.

Self contained solution for any size of mixing room

Integrated label printer

Automatic barcode reader

TOUCHMIX® Express PC with smart on-board software

Exclusive pumping groups with recirculating process

Ultra precision scale for an error proof solution

Fully integrated with the PPG Digital ecoSystem

ELIMINATE WASTE & MESS

Minimise material consumption waste and enjoy a clean, splash free workspace with a revolutionary, self contained system that is suitably sized to fit all mixing rooms.

AUTOMATE PROCESS

Achieve greater productivity with innovative software systems that save you time and money by reducing labour costs and increasing efficiency while also limiting the potential for human error.

MAXIMISE ACCURACY

Benefit from the ultra precision that comes with automating the mixing process, improving quality and consistency while also delivering the best experience for painting technicians.

GENERATE PROFIT

Maximise revenue with this easy to use and efficient mixing technology that saves labour costs, streamlines bodyshop processes and creates greater workroom capacity.
