Email:	enquiries@ppg.com

Bodyline Bodyguide White Dry Guide Coat used for dark colour surfaces. Dry Guide Coat with excellent covering properties. The powder makes all low spots, imperfections and scratches visible on the repair.

Features:

- 100g of Powder.
- This unique applicator leaves an even powder coating.
- The applicator has flexible edges which makes it easy to use on contoured areas.
- Can be used in the panel shop over filler and paint shop over primers
- Doesn't clog the abrasive paper like aerosol paint guide coats.
- No masking required.
- A great tool in guiding the operator through the sanding process and achieving a perfect result, right first time. Saving money.

Application:

- Keeping the applicator pad firmly on the powder cartridge, lightly shake the two together to coat the pad with the powder.
- Apply a small amount of the powder onto the applicator face and gentle rub over the sanding area of the repair, generally in circular pattern.
- Begin sanding, low spots and imperfections will be highlighted as white areas.
- Please ensure the correct PPE is worn for the task.

Storage:

Store inside in a warm dry place.
