

ENGINEERED AT THE CORE

Driving precision and reliability
through advanced components.

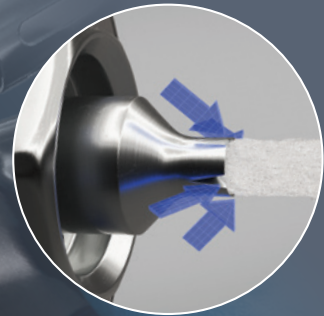

SPLIT NOZZLE™ 2.0 TECHNOLOGY

Consistency, ensured.

Four precision-cut slits direct the airflow into the material stream enhancing atomisation at its core for a **flat, precise fan pattern** and **high-transfer performance**: uniform results, coat after coat.

- Balanced Application
- Low Consumption
- Consistent Control

DPG-1 DIGITAL GAUGE SYSTEM

Accuracy, integrated.

Compact, quick-detachable digital gauge: seamless integration with WS/LS spray guns with no compromise on balance. **Click-Mag System** for fast removal, precision-placed sensor and user-replaceable battery.

- Instant Detaching
- Real-Time Accuracy
- Zero Downtime

TOUGH,
WITHOUT
COMPROMISE

SUSTAINABLE BY DESIGN

Purpose-built. Responsible by nature. Series 2.1 applies four principles to minimize waste and maximize performance:

Long-lasting spray gun for extended durability.

= Reduced replacements.

Complete parts access for total repairability.

= Optimized resource use.

Painting efficiency for reduced processing time.

= Minimized material consumption.

Sustainable packaging for a plastic-free solution.

= Fully recyclable materials.

SAVE TIME,
MONEY AND
ENVIRONMENT.

PRECISION, PRECONFIGURED

Every task, precisely matched. Series 2.1 is delivered pre-configured for specific applications.

SUPERIOR SET

Two Series 2.1 Spray Guns and two 600 ml Gravity Cups in a professional case: digital and non-digital versions available.

PRO SET*

WS-400/LS-400 Series 2.1 Spray Gun, available with DPG-1 Module or HVC Air Pressure Regulator.

ECO SET*

WS-400/LS-400 Series 2.1 Non Digital Spray Gun and 600 ml Gravity Cup.

*Images for illustrative purposes only: Pro and Eco Sets are available for the entire Series 2.1 range.

RIGHT SETUP.
RIGHT OUTCOME.

INSIDE SERIES 2.1

Evolved for lasting durability...

Featuring a high-performing anodised finish, the spray gun body is engineered to better withstand solvents, support convenient handling, and deliver superior cleanability, combining robust construction with practical, effortless use.

...Grounded in expertise.

Series 2.1
spray guns

Atomisation

Even droplet distribution
= superior efficiency
= flawless finish.

Pressure Stability

Stable pressure output
= uniform atomisation
= perfect consistency.

Handling

Balanced trigger and weight
= reduced fatigue
= enhanced precision.

READY FOR EVERY STAGE

Engineered to fit your process

WS-400 BASE

Precision for modern basecoats.

Ultra-fine and even atomisation for today's one-visit basecoats: ensuring perfect colour matching even for difficult shades.

**Faster process,
better results
= more jobs done.**

LS-400 BASE

Control and consistency in all conditions.

HVLP technology for waterborne and solvent-based basecoats: providing stable droplet size and predictable application in all conditions.

**Save paint
and time
= save money.**

WS-400 CLEAR

Gloss and flow, right from the start.

Lays down clearcoats with balance and precision without needing any tweaking: achieving a smooth finish without orange peel.

**Less do-overs
= more profit
and confidence.**
